November 15, 2006

Mr. Nadab O. Bynum
Director, Community Planning & Development
U.S. Department of Housing & Urban Development
Pennsylvania State Office
The Wanamaker Building
100 Penn Square East
Philadelphia, PA 19107-3380

Dear Mr. Bynum:

I am pleased to submit the Action Plan for 2007 for the Consolidated Plan. This Action Plan is the third update to the Consolidated Plan for Federal Fiscal Years 2004 through 2008.

The Action Plan demonstrates DCED's implementation of HUD's outcomes and performance measures as outlined in HUD'S Program Notice issued in March of 2006. The 2007 Action Plan also includes a proposal to use HOME funds in a pilot effort for tenant based rental assistance with a preference given to persons with disabilities. The pilot is another step in DCED's partnership with the Pennsylvania Housing Finance Agency (PHFA) to administer HOME funds. In addition, the Action Plan contains minor amendments and modifications to the five-year Consolidated Plan for 2004 through 2008.

We have made every effort to comply with the applicable statutory and regulatory requirements. I trust that our submission provides the information necessary to approve this document which, in turn, authorizes the Commonwealth's expenditure of these funds.

Sincerely,

Dennis Yablonsky
Secretary

EXECUTIVE SUMMARY

The Commonwealth of Pennsylvania will establish a split program year for the United States Department of Housing and Urban Development (HUD) programs contained within the Consolidated Plan. The Community Development Block Grant (CDBG), the HOME Investment Partnerships (HOME), and the Emergency Shelter Grant (ESG) programs administered by the Department of Community and Economic Development (DCED) will operate on a January 1 through December 31 program year. The Housing Opportunities for People With Aids (HOPWA) program, administered by the Department of Health (DOH), will follow a July 1 through June 30 program year.

The Commonwealth began implementing HUD's Performance Measurement System for its 2006 program year. The 2007 Action Plan establishes performance goals using the preliminary results from the new measures. In assessing its past performance, the Commonwealth made significant progress in both implementing the HUD Performance Measurement System and in instituting the new priorities for housing programs contained in the 2006 Action Plan.

The Commonwealth became the first state in the nation to implement the HUD Performance Measurement System for all open and new projects beginning on January 1, 2006. DCED developed procedures to begin this project a full nine months ahead of the HUD-required start date. This expedited implementation schedule will allow the Commonwealth to provide a full year's experience in its Consolidated Annual Performance Report for 2006. DCED also provided training to its grantees and technical assistance tools that have helped not only our grantees but other urban and state entitlement grantees across the country. This assistance included dissemination of a spreadsheet tool to gather performance measure data prior to that feature being activated in the Integrated Disbursement and Information System (IDIS).

DCED, in cooperation with PHFA, began during 2006 to fully implement the new approach for the HOME Program that was developed in 2005 with the leadership of the Governor's Office of Housing and Community Revitalization and PHFA. This new approach established new housing priorities and a new collaborative effort to administer the HOME Program. The focal point of these new housing priorities gave greater emphasis to: projects that are targeted to areas of greater need as well as meeting the needs of certain target populations, projects that leverage other resources (both financial as well as non-financial supportive activities), and those projects that produce community-changing impact. DCED and PHFA have cooperated through joint reviews and approvals of homeowner rehabilitation, homebuyer and small rental housing applications in 2006.

DCED and PHFA implemented the new targeting, leveraging and impact priorities by approving 23 grants totaling \$8,665,314, of 2006 HOME funds, each of which effectively incorporated the new criteria into their applications.

The restructuring of the HOME Program priorities has also been implemented in the state housing programs as well, by fully incorporating the targeting, leveraging and impact criteria into the application review and approval process.

CDBG Program

DCED will administer the CDBG Program by allocating 85% of the funds through a formula established by state Act 179. Another 13% will be allocated through a competitive process. The balance of the funds (2%) will be used for DCED's administrative expenses, including support for the Commonwealth's Section 108 loan initiative. Of the funds used for housing, 5% will be used for homebuyer assistance; up to 10% may be used for support services. DCED's public input process for the Consolidated Plan includes involvement and consideration of needs of persons with disabilities, consistent with the New Freedom Initiative. DCED directs its grantees to also address these needs in considering use of CDBG funds. Staff from DCED Center for Community Development will meet with the Community Development and Housing Practitioners Advisory Committee to discuss the Action Plan 2007 and its content in October

2006. The draft document will be forwarded to the committee and their significant comments will be included in Appendix G.

HOME Program

DCED will administer the HOME Program but will transfer a greater portion of the Commonwealth's allocation to the Pennsylvania Housing Finance Agency (PHFA) as a sub-recipient to administer for rental projects and homebuyer projects, including American Dream Downpayment Initiative (ADDI) funds. PHFA will use 35% of these funds for rental housing construction and development for projects with ten or more units. PHFA has also agreed to underwrite all HOME projects requiring underwriting.

The balance of the HOME funds will be administered by DCED through a competitive application process in a joint review between PHFA and DCED. The nature of the applicant and project will determine whether DCED or PHFA will contract to administer these projects. The 2007 Action Plan also includes a proposal to use HOME funds in a pilot effort for tenant-based rental assistance with a preference given to persons with disabilities. This pilot is another step in DCED's partnership with PHFA to administer HOME funds.

Ten percent (10%) of HOME funds may be used for administrative costs. DCED will share 4% for state administration with PHFA and allow a maximum of 6% for local administrative costs. PHFA will spend 5.5% of the HOME funds used for rental projects to support administrative costs, as one exception to the split of administrative funds.

ESG Program

DCED will administer the ESG Program through a competitive application process. DCED estimates that 45% of the funds will be used to rehabilitate shelters, about 10 percent for essential services, approximately 40% for operating costs, and 5% for homeless prevention. Up to 5% may be used for administrative costs; however, some grantees choose to use these funds for project activities while drawing administrative funds from other sources. DCED only utilizes 2.5% of the grant for administration

HOPWA Program

The Department of Health (DOH), Bureau of Communicable Diseases, Division of HIV/AIDS (Human Immunodeficiency Virus/Acquired Immune Deficiency Syndrome) will administer the HOPWA Program by allocating the funds on a formula basis to six of the seven regional HIV Planning Coalitions/Fiscal Agents. The Philadelphia and Pittsburgh regions receive separate allocations directly from HUD. The Southwestern PA AIDS Planning Coalition receives funds from the Commonwealth for four counties in their region. The formula to allocate these funds is primarily based on the number of persons living with AIDS in each region. Although a detailed program plan will be submitted to HUD outlining specific uses of 2007 funds by May 2007, the DOH estimates, excluding administrative costs, that funds will be spent as follows: 72% for rental assistance; and 8% for support services; and 20% for operating and other costs.

The goal for the 2005 Consolidated Plan year was to provide housing assistance to 634 households. During that HOPWA grant year, 691 households received housing assistance.

AMENDMENTS TO CONSOLIDATED PLAN FOR 2004-2008

The 2007 Action Plan is an update of the Commonwealth's Consolidated Plan for FFY 2004-2008. The Specific Annual Objectives and Outcome Measures sections of the Action Plan contain new material action steps that expand upon the five-year Consolidated Plan. The amendments below affect the administration of both the 2006 and 2007 programs and activities for the Commonwealth.

Outcome Measures

The Commonwealth is replacing all Outcome Measures contained in its Consolidated Plan with the HUD Performance Measurement System as outlined in the *Federal Register* on March 7, 2006. Implementation of this process for the Commonwealth's federal HUD programs was made effective as of January 1, 2006.

Disaster Response

DCED reserves the right to reallocate funds in the event of either a Presidential-declared or Gubernatorial-declared disaster. Any reallocation of funds will be performed consistent with HUD requirements and any regulatory waivers that are granted.

ACTION PLAN FOR FEDERAL FISCAL YEAR 2007

This document is the Commonwealth's draft Action Plan for Federal Fiscal Year (FFY) 2007 and the program year that begins on January 1, 2007. The 2007 Action Plan is the third update to the Consolidated Plan for FFY 2004 - 2008. The Consolidated Plan combines the required Plans and application materials for HUD's housing and community development programs.

The complete Consolidated Plan contains a description of housing and community development needs and resources, establishes strategies, and prioritizes the use of housing and community development dollars before they are spent.

DCED is responsible for developing the Consolidated Plan and related documents because it administers three of the four HUD programs included in the Plan.

Copies of this draft Action Plan, as well as the five-year Consolidated Plan for FFY 2004-2008 have been distributed to, and should be on file, in the five DCED regional offices. The 67 County Board of Commissioners and members of the Community Development Practitioners Advisory Committee have been notified of the document's availability on the internet. Pennsylvania's 27 District Libraries have copies. If copies of either document cannot be obtained at these locations, they are available by contacting Karen Overly Smith in the DCED Center for Community Development, 400 North Street, 4th Floor, Commonwealth Keystone Building, Harrisburg, PA, 17120, or by telephoning 717-214-5340. Text telephone calls can be placed through the Pennsylvania Relay System at 800-654-5984.

Public Participation Process

In developing the Consolidated Plan, the DCED continued to use its broad public participation process. That process has been improved upon by making better use of the Internet and electronic technologies. DCED again provided an on-line public hearing and has made the document available on DCED's website www.newPA.com. Program changes and PHFA's Renovate and Repair Loan Program were reviewed by the five Regional Housing Advisory Committees (RHACs) in May and June of 2006. A significant discussion was also held on the implementation of HUD's performance measurement system. More than 60 people participated in these five RHAC meetings.

Once again, the Commonwealth conducted an on-line public meeting on July 19, 2006. The meeting was advertised in nine newspapers of general circulation, as well as the May 12, 2006 issue of the Pennsylvania Bulletin. A separate phone line was set up on the same date to handle technical needs and inquiries. The information about the on-line public meeting was included in the public notice invitations. Participants were asked to pre-register and provide their contact data. The meeting was an open forum for discussion and questions about the Consolidated Plan. A total of three persons registered. These three people did not, however, log on and participate on the day of the forum.

The Pennsylvania Housing Advisory Committee (PHAC) met in October and the meeting was open to the public. The PHAC's agenda included discussion of the tenant-based rental assistance pilot using HOME funds, as well as discussions about how to coordinate "People First" housing opportunities.

The 30-day public comment period for the draft 2007 Action Plan begins on October 7, 2006 and will end on November 7, 2006. DCED published a summary of the Action Plan in the Pennsylvania Bulletin on September 30, 2006. The **Public Comment Details** section will be added to Appendix G before the final document is submitted to HUD. The summary was circulated in general newspapers in the following locations on or about September 25, 2006:

Altoona	Erie	Lancaster
Allentown	Wilkes-Barre	Harrisburg
Butler	Scranton	
Johnstown	West Chester	

Persons with disabilities and organizations representing persons with disabilities shall be given accommodation in order to be involved in the citizen participation process for the Consolidated Plan as per the federal New Freedom Initiative. This is an effort remove barriers to community living that are present in the lives of persons with disabilities. The objective includes the promotion of full access to community life.

Additionally, the summary of the Consolidated Plan was broadcasted over the Commonwealth's 13 radio-reading services for the blind between September 25, 2006 through November 6, 2006. The summary is made available to the Tri-County Branch of the Pennsylvania Association of the Blind for transfer to audiocassette. The text is available to hearing impaired persons via the Internet site (<http://www.newPA.com>).

The draft Consolidated Plan Action Plan 2007 for public comment was available at the locations listed below. The final Action Plan 2007 will be available at the same locations:

County Commissioners: A notice of website copy availability was provided to the Chairperson of each of the Commonwealth's 67 County Board of Commissioners.

Pennsylvania Department of Community and Economic Development Regional Offices:

Southeast Regional Office - Philadelphia
Northeast Regional Office - Scranton
Central Regional Office - Harrisburg
Southwest Regional Office - Pittsburgh

Martin Memorial Library, York

In addition, copies of the entire Action Plan 2007 are available on DCED's web page at www.newPA.com, as well as by request for paper copies. Information about its availability is sent to all the RHAC members, PHAC members, the Community Development and Housing Practitioners

Committee, Pennsylvania's local government associations and advisory committees, the Governor's Advisory Commission on Latino Affairs, the Governor's Advisory Commission on African-American Affairs, the Governor's Advisory Commission on Asian-American Affairs, the Commission for Women, the Pennsylvania Human Relations Commission, and the Pennsylvania Historical and Museum Commission.

Integrated HIV Planning Council

The PA Department of Health (DOH), Bureau of Communicable Diseases, Division of HIV/AIDS was advised September 12, 2006 about the RHAC, PHAC, and public meetings that were held to discuss the Action Plan for 2007. DCED is represented on the Integrated HIV Planning Council and will continue to provide information to the Council members, periodically, as required/requested. DCED also works with DOH staff concerning the administration of the program. The Council is comprised of representation from government partners, consumers of HIV-related services, the Ryan White HIV Planning Coalitions, all Titles of the Ryan White CARE Act of 1990 and its Amendments of 1996, and other community partners.

Public Hearings Summary

A formal opportunity for public comment was held on November 3, 2006 via the Internet. The purpose of this hearing was to receive comments and testimony concerning the content of the draft Action Plan for FFY 2007 from a more geographically dispersed population. All RHAC members were specifically encouraged to participate in the online public hearing. A second formal opportunity for the public to comment on the Plan was scheduled for November 6, 2006. Comments from the two formal hearings and other informal meetings held during the 30-day public comment period are summarized in Appendix G of this final version of the 2007 Action Plan submitted to HUD.

SPECIFIC ANNUAL OBJECTIVES

Housing Priorities

In 2006, the Commonwealth implemented a new set of housing priorities jointly with the PA Housing Finance Agency. Those housing priorities were applied to the selection criteria for the HOME program and the primary state-funded, competitive housing programs, including DCED's Brownfields for Housing and PHFA's Homeownership Choice Program.

The Commonwealth will continue to use this criteria to select its competitive housing grants awards. Those priorities which remain unchanged from the 2006 Action Plan are outlined below:

The grant selection process for DCED and PHFA will prioritize applications that:

1. effectively target resources
2. leverage other funds and supportive efforts from other programs, and
3. demonstrate a significant impact on the quality of life in a community.

These factors are further described below. Each application for funding may not meet all three criteria. The more that an application can demonstrate in these areas, the more likely it will be evaluated higher in the funding consideration process and receive approval.

Targeting

Establishing a target for funding is primarily a local responsibility and it absolutely requires local priority-setting. Targeting, as defined for these purposes, is something other than a "first-come, first-served" approach to approve the use of funds and make decisions about who receives help and how funds will be spent. (A targeted project may still have some element of first-come, first-served; but, it will not be the sole basis for selecting project participants.)

There are multiple means of targeting a project, a few examples of what constitutes an acceptable targeting approach include:

- Geographic area, or multiple areas within a large municipality or county
- Entire municipality if its population is small and developed area is concentrated
- Population group (such as: disabled, family farms, migrant/seasonal farm workers or other workforce group)
- Strategic blighted properties
- Other compelling need as outlined via a comprehensive, community strategy

If a project targets multiple areas or goals, the applicant should also define priorities among those targeted areas--indicate what the primary target is and what secondary ones are. All targeted areas should be justified with details about how the established target will either address significant housing needs, blight, very low income problems and/or community development needs, thereby explaining why a target was selected.

Applications can receive still favorable consideration under the targeting criterion if there is a mix of a targeted approach with an untargeted, first-come, first-served one. The application should clearly indicate the portion of funds or effort that will be used for each approach in order to allow an appropriate evaluation of the project under this criterion.

Leverage

Leverage is much more than money and it is not the same as a required program match. Leverage is an assessment of other resources that will contribute to a positive result if an application is approved for

funding. Leverage also demonstrates that the local government supports a project through more than an endorsement of the application.

Leverage can include factors such as:

- adding human capital from other sources (e.g., volunteerism)
- supporting regionalism (e.g., affordable housing for multi-municipal zoning)
- coordinating activities with other programs (e.g., rehab with property maintenance code enforcement)
- provision of social and other supportive services (e.g., connection / referral to needed services such as job training, counseling, medical and income supports)
- developing community assets (e.g., housing that is a walk-able distance from downtown)
- gaining private sector funding that would not normally be used for housing (e.g., foundation or business contributions/loans)

NOTE: Examples in parentheses are explanatory only, not the exhaustive list of what qualifies.

Successful applications should address several of these aspects. The evaluation of leverage is not a quantitative process since several of these factors are not quantifiable. However, applications that demonstrate these elements will be given greater weight in the funding process.

The total amount of funds committed and/or proposed to support a project will also be evaluated as part of all applications. The amount of funds leveraged and project cost will be evaluated in light of the population group to be served, location of the project and nature of the activity (homeownership, rehab, or rental).

Local government financial commitment is critical to demonstrate support for a project. Applicants should show that they have received funds or obtained commitments from either CDBG funds or other local/county municipal revenues to support their projects as a proof that those projects are a local priority. The local commitment aspect of leverage will be evaluated with deference to the applicant or community's: size, access to other funding sources, financial distress, and access to CDBG funding.

Impact

Projects seeking housing funds will be evaluated to determine whether they will have an impact on the community. Such benefits are extremely difficult to prove in a project application but a well-planned project can reasonably identify the anticipated, broader benefits. Projects with such impact are designed to fulfill the following principles:

- community changing on a long-term basis (e.g., comprehensive community improvements, addressing housing, business and other community elements)
- promote housing sustainability (e.g., energy efficiency and maintenance of housing, or education of residents)
- encourage community stability (e.g., create a better balance of housing types or mixed incomes within a community)
- create spin-off private investment (e.g., other privately funded housing improvements or business establishment)
- support economic/business growth and job creation (e.g., creates attractive or affordable housing stock for business recruitment)
- provide other lasting improvements

NOTE: Examples in parentheses are explanatory only, not the exhaustive list of what qualifies.

In evaluating projects for their potential impact, DCED and PHFA will give consideration to the capacity of an organization, its community, and/or its development team. While it may be difficult to demonstrate an "impact track record," the experience and results achieved in other projects will be

used to determine the feasibility of the broader goals established in an application. That experience will be a greater factor than the statements and projections made in an application on the impact to be achieved.

Performance Measures (Outcome Measures)

The Commonwealth began using the HUD Performance Measure System as of January 1, 2006. DCED distributed instructions in advance of HUD's publication of the new system on March 7, 2006 that all grantees should maintain information starting on January 1, 2006. Those instructions were based on HUD's proposed system so that the Performance Measures would be available for the entire 2006 program year. Training for the new data collection system in IDIS has been on-going and will continue into 2007. In 2007, DCED will also obtain reports that analyze the results of the Commonwealth's grantees.

This 2007 Action Plan contains the Commonwealth's first use of the HUD Performance Measures and set anticipated goals for what will be achieved in 2007. The Outcome Measures section and Table 1 below summarize those anticipated goals.

Partnership Between DCED and PHFA

DCED and PHFA entered into another Memorandum of Understanding (MOU) that will allocate substantially greater responsibilities to PHFA for administration of the HOME Program. In 2006, the two agencies cooperated to develop PHFA's Keystone Renovate and Repair Loan Program. While this new loan program will not use federal HOME funds, it was designed to take advantage of the network of HOME grantees that could administer it.

The partnership between the two agencies will continue its efforts by requiring that HOME grantees administering Homebuyer funds must either utilize the PHFA Keystone Home Loan programs for the first mortgages or demonstrate that the assisted homebuyers obtained a more favorable mortgage interest rate from another lending source.

Homeless and Other Special Needs

Continuum of Care

The Commonwealth, through the Homeless Steering Committee, will continue to support and assist the homeless and other special needs groups that require supportive housing. In 2007, the primary efforts to assist homeless will be outlined in the four regional Continuum of Care applications and action plans. The Commonwealth supports the regional Continuums through technical assistance and training, as well as the Homeless Steering Committee's policy direction for these regional efforts. DCED also will continue to provide HOME funds as leverage for those projects which develop either permanent or transitional housing.

The other most significant action steps the Commonwealth will take in 2007 will be implementing the findings from the Supportive Services study project undertaken as a Technical Assistance project funded as a follow-up assistance by the federal Policy Academy. The goal of the Supportive Services study project is to identify options to shift the cost of these services from the Continuum of Care to mainstream sources.

The annual Continuum of Care applications contain a more detailed description of all the action steps that the Commonwealth intends to pursue. Anyone seeking a copy of those regional documents can obtain them by contacting DCED's Center for Community Development, 400 North Street, Harrisburg, PA, 17120.

Agenda for Ending Homelessness in Pennsylvania including Chronic Homelessness

The Commonwealth also continues to implement its “Agenda for Ending Homelessness in Pennsylvania.” A major initiative this year that will assist both homeless and other special needs groups is a pilot effort to implement Tenant Based Rental Assurances using HOME funds. Additional details about this pilot effort are outlined in the HOME section of the 2007 Action Plan below. This cooperative effort will be undertaken by PHFA, with substantial input from DCED and the Homeless Steering Committee.

The Tenant Based Rental Assistance pilot will be a significant step for the Commonwealth to address chronic homelessness. The Commonwealth’s other anticipated steps for addressing the barriers of the chronic homeless are outlined in the work plans of the four regional Continuums, including:

- Planning for Permanent Housing and Shelter Plus Care projects submissions from 2007 - 2011
- Occupying any existing Permanent Housing slots with chronic homeless
- Assist the chronic homeless to occupy Continuum Permanent Housing Projects funded prior to 2006
- Participate in SOAR (SSI/SSDI Outreach, Assessment and Recovery) TA initiative to increase access to benefits for chronically homeless persons.
- Formulate solutions to assist chronic homeless individuals in obtaining proper identification.
- Develop improved state discharge planning protocols at community hospitals.

Discharge Policy

The Commonwealth has signed the new ESG Certification including the assurance that it has established a policy for the discharge of persons from publicly funded institutions or systems of care (such as health care facilities, youth caring system, and correction programs) in order to prevent such discharge from immediately resulting in homelessness for such persons.

Homeless Management Information System

DCED will continue to implement and expand use of its Homeless Management Information System (HMIS). The priority efforts in 2007 will consist of assuring that 100 percent of all four regional Continuums of Care funded beds are covered by the Commonwealth’s HMIS. The provision of formal training and “help desk” assistance will be provided to reach both this goal and work towards the broader goal to incorporate all housing and shelter provider agencies (including those not funded through the Continuum of Care). Additionally, DCED will begin to undertake analysis of the HMIS data to monitor performance and identify program management changes to improve the delivery of homeless housing and services.

Other Actions

PHFA Housing Study, Underserved Needs, and Fair Housing

PHFA has developed a housing database of information to analyze housing needs and identify any impediments to fair housing. This housing study was completed in 2006 and PHFA is working to make the database accessible to the public. The information will be used by PHFA, DCED and other state agencies to identify and address any underserved housing needs and address any fair housing issues. Also, DCED and PHFA continue to coordinate their efforts to address impediments to fair housing with the PA Human Relations Commission.

Continue to Coordinate HOME and LIHTC

The Commonwealth will continue to coordinate the use of HOME funds and the Low Income Housing Tax Credits (LIHTC) by consolidating the application and review process for both programs. PHFA manages both programs through a single, integrated process in which developers can apply for both resources via one application. PHFA also reviews and approves those applications in tandem. DCED and PHFA, as part of their partnership efforts, also coordinate the review of the small-rental HOME projects (less than 10 units) to assure that projects needing tax credits will receive them prior to approving those small rental projects for HOME funds.

OUTCOME MEASURES

The following table summarizes the anticipated results DCED expects for 2007 using HUD funds. The table below displays those anticipated results using the HUD Performance Measure framework including the three general objectives and general outcomes. The table aggregates the specific performance indicators by those general objectives and outcomes framework. These anticipated numbers are based on the Commonwealth's experience during the first eight months of 2006. This new approach gives a much richer depiction of what will be achieved using the federal funds that HUD provides.

TABLE 1
Summary of Anticipated Annual Objectives

Decent Housing Objective

Outcome	Indicator	Projected 2007 Total
Availability / Accessibility	Housing Units Assisted	1,457
Affordability	Housing Units Assisted	1,851
Sustainability	Housing Units Assisted	5

Suitable Living Environment Objective

Outcome	Indicator	Projected 2007 Total
Availability / Accessibility	People Assisted	503,625
Availability / Accessibility	Households / Housing Units Assisted	692
Affordability	People Assisted	48
Affordability	Households / Housing Units Assisted	15
Sustainability	People Assisted	130,514
Sustainability	Households / Housing Units Assisted	38

Economic Opportunity Objective

Outcome	Indicator	Projected 2007 Total
Availability / Accessibility	Jobs Created	209
Sustainability	Businesses Assisted	8

The Commonwealth's annual goals for assisting households/persons with affordable housing during 2006 are summarized below. These numbers are a subset of the projected numbers in Table 1. (See "benefit with housing" in Definitions of Terms in Appendix F.)

	Meets Section 215 Affordability	Other Affordable Housing	Projected 2007 Total
Single-Family Rehabilitation		1,800	1,800 units
Rental Housing	1,500		1,500 units
Homebuyer Assistance	150		150 units
Housing for Homeless		5,200	5,200 persons
Housing for Special Needs Groups (based on HOPWA Program)		694	694 units
Total Households			4,144 units
Total Persons			5,200 persons

DISTRIBUTION OF FEDERAL RESOURCES FOR 2007

Summary of Anticipated Housing Uses

Table 2 summarizes the anticipated funds and expected uses of all federal housing funds for FFY 2007. The Commonwealth anticipates receiving \$134,018,000 in federal funds for affordable housing. The Commonwealth also anticipates state programs that can be used to match those funds will total over \$59,174,000. The explanations for Table 2 are found in Appendix B.

Community Development Block Grant

The Commonwealth of Pennsylvania, through DCED, has elected to administer the Community Development Block Grant (CDBG) for federal non-entitlement areas for FFY 2007. This is known as the Pennsylvania CDBG Program.

Program Goals and Objectives

- To assist communities in preparing Community Development Plans designed to address significant needs of the low and moderate income.
- To assist communities in administering community development projects designed to address a number of significant community development needs identified in the Community Development Plan.
-
- To encourage and to assist communities to focus upon and address housing and community facility problems; and, to pursue economic development and commercial revitalization activities through public/private investment initiatives that will result in the development and expansion of job opportunities within the Commonwealth.
-
- To encourage and assist communities to focus on the incorporation of the objectives of the New Freedom Initiative so that state grantees identify needs of persons with disabilities and target CDBG resources to meet those needs. Persons with disabilities and organizations representing persons with disabilities should be involved in the citizen participation process.

Eligible Applicants

Eligible applicants include any non-federal general-purpose units of local government, including cities, boroughs and townships, towns, counties, home rule municipalities, and municipalities that opted out of federal Urban County Program. In accordance with state Act 179, for FFY 2006, eligible applicants for the Pennsylvania CDBG Program are divided into three general classes as shown in Appendix C. These classes include 27 cities, 52 counties and 126 boroughs, town, townships and applicants. Competitive applicants are non-federal entitlement boroughs and townships under 4,000 population, and Act 179 entitlement boroughs and townships under 10,000 in population, or counties or cities applying on behalf of the eligible borough and townships.

Fund Allocation

The exact amount of the Commonwealth's CDBG allocation of 2007 funds is not available at the time of this publication. However, it is expected that the 2007 allocation will approximate the 2006 allocation of \$59,174,000, or a minimal increase.

TABLE 2
Investment of Housing Resources
FFY 2007

A. Formula/Entitlement Programs

Funding Source	Amount Anticipated by State in 2007 \$(000s) (A)	Single-Family Rehab (B)	Rental Constr. & Rehab (C)	Rental Assistance (D)	Homebuyer Assistance (E)	Support Services (F)	Operating & Other Costs (G)	Homeless Prevention (H)
1. HOME (includes ADDI)	30,000	40%	45.9%	.5%	7.6%		6%	
2. CDBG (Housing Funds Only)	10,000	85%			5%	10%		
3. ESG	3,201		45%			10%	40%	5%
4. HOPWA	1,548			72%		8%	20%	
5. DOE/Other Energy Programs	42,951	74%	26%					
6. CSBG	1,800			70%		30%		

B. Competitive Programs

Funding Source	Amount Anticipated by State in 2007 \$(000s) (A)	Single-Family Rehab (B)	Rental Constr. & Rehab (C)	Rental Assistance (D)	Homebuyer Assistance (E)	Support Services (F)	Operating & Other Costs (G)	Homeless Prevention (H)
7. LIHTC	24,000		100%					
8. PATH	2,034					96%	4%	
9. SSBG	4,183							
10. McKinney Vento	14,301		31%	31%		34%	4%	
11. Total Federal	134,018							
12. Total State	59,174							
13. Total All Sources	193,192							

Administration: Act 179 and implementing regulations provide that 2% of the Commonwealth's annual Block Grant allocation will be set aside for the state's administration of the program. The Commonwealth may use up to 1% of its allocation to implement a technical assistance program for CDBG and other HUD programs.

Competitive Set-Aside: The competitive set-aside is 13% of the Commonwealth's allocation.

Cities: The funds set aside for entitlement cities is 24% of the Commonwealth's annual allocation that remains after deducting the state's administration and competitive funds from the total allocation. Each entitlement city will be allocated a minimum grant of \$300,000 and an additional amount equal to the sum which is obtained by multiplying the balance of funds available to entitlement cities, after each receives its minimum grant, by a fraction, the numerator of which shall be each entitlement city's population and the denominator of which shall be the total population of all entitlement cities.

Boroughs, Towns and Townships: The funds set aside for entitlement boroughs, towns and townships are 38% of the Commonwealth's annual allocation that remains after deducting the state's administration and competitive funds from the total allocation. Each entitlement borough, town and township will be allocated a minimum grant of \$50,000 and an additional amount equal to the sum which is obtained by multiplying the balance of funds available to entitlement boroughs, towns and townships, after each receives its minimum grant, by a fraction, the numerator of which shall be each entitlement borough, town and township's population and the denominator of which shall be the total population of all entitlement boroughs, towns and townships.

Counties: The funds set aside for counties are 38% of the Commonwealth's annual allocation that remains after deducting the state's administration and competitive funds from the total allocation. Each eligible county will be allocated a minimum grant of \$200,000 and an additional amount equal to the sum which is obtained by multiplying the balance of funds available to eligible counties, after each receives its minimum grant, by a fraction, the numerator of which shall be each eligible county's net population (county's population minus the population of all federal and state entitlement entities within the county) and the denominator of which shall be the total net population of all eligible counties.

Funding Procedures and Application Reviews for Eligible Entitlement Entities

Funding and application procedures and requirements are contained in the guidance material entitled CDBG Guidelines.

Funding Procedures and Application Reviews for Competitive Applicants

Thirteen percent (13%) of the 2007 CDBG allocation will be set-aside for the Competitive Program.

In addition to the competitive funds available through the Commonwealth's 2007 federal allocation, funds from other sources may be available for competitive project grants.

Competitive applications will be evaluated based on the seriousness and resolution of the problem to be addressed. Applicants must explain how the problem affects people. The Department will determine the degree of seriousness of each identified problem. Consideration will also be given to the degree the proposed project will best resolve the identified problem. The Department will determine if the proposed project will totally resolve the problem or only part of the problem in consideration of the intended beneficiaries.

Program Requirements

Program requirements for the CDBG program are contained in the CDBG Program Guidelines.

Section 108 Loan Guarantee Program

DCED, in cooperation with HUD, has developed a new initiative through the establishment of a Consortium of local governments to use the Section 108 Loan Guarantee Program. DCED assisted that Consortium by preparing an application for an initial allocation of Section 108 loan funds for future Section 108 loan projects. This Consortium concept is expected to expedite future Section 108 loan applications and will provide accessibility to Section 108 loan funds to public entities to participate in the Section 108 loan program. This new initiative will access a significant financial resource for community and economic development projects that would not otherwise be implemented without loan guarantees. DCED has developed and distributed guidelines for the Section 108 Loan Guarantee Program.

DCED will offer an additional state guarantee for these projects to insure that CDBG funds are not lost in the event of a default. This pledge of state funds may be up to 100% of a potential default. DCED provided the details of this state guarantee in its Section 108 Loan Guarantee application to HUD, as well as the new guidelines.

The maximum amount of a Section 108 Loan Guarantee that an entitlement community may apply for, is limited to the amount of a loan that the Community's CDBG allocation could support as an annual debt service payment, based on the average amount of their CDBG allocation for the past three (3) years, or \$7,000,000 which ever is less. Non-entitlement communities can access a maximum \$3 million loan guarantee. The maximum term of the Section 108 Loan shall not exceed 20 years.

DCED will review applications for Section 108 Loan Guarantee for compliance with the revised state guidelines and in conformance with the federal regulations.

HOME Investment Partnerships Program

The HOME Program is the Commonwealth's primary vehicle to provide affordable housing. For 2007, the Commonwealth will continue to use the housing priorities contained in the 2006 Action Plan amendments of the Consolidated Plan and found in the Housing Priorities section of this document.

Priority

The Commonwealth will distribute the 2006 HOME Program allocation, through DCED, in accordance with this Action Plan, the requirements of the National Affordable Housing Act of 1990, HOME Rule at 24 CFR 92 and 24 CFR part 91.

The Commonwealth will give priority to projects that demonstrate targeting, leverage and impact as defined in the Commonwealth's housing priorities outlined in the 2006 Action Plan.

The Commonwealth's distribution of funds will be consistent with the needs identified in the Consolidated Plan for FFY 2004 - 2008. As in previous years, the Commonwealth will give nonparticipating jurisdictions first priority. However, because it may be difficult to develop affordable housing in such jurisdictions within legislatively imposed time frames, the Commonwealth reserves the right to distribute funds to other Pennsylvania jurisdictions. Funding levels will be based on individual applications complying with regulatory layering and HOME per unit minimum investment requirements.

Distribution of Funds and General Requirements

Pennsylvania's 2007 federal allocation of HOME funds should be close to the 2006 figure of \$ 26,935,683, which includes ADDI. The Commonwealth will distribute HOME funds to local governments and will carry out its own affordable housing activities by allocating a portion of the 2006 funds to a sub-recipient, PHFA. Ten percent (10%) of HOME funds may be used for administrative costs. DCED will share 4% for state administration with

PHFA and allow a maximum of 6% for local administrative costs. PHFA will spend 5.5% of the HOME funds used for rental projects to support administrative costs, as one exception to the split of administrative funds.

DCED will administer the HOME Program by transferring a significant portion of the Commonwealth's allocation to PHFA as a sub-recipient to administer rental projects and homebuyer projects, including all available ADDI funds. Except for the larger rental projects, these HOME funds will be administered through a competitive application process consisting of a joint review between PHFA and DCED.

The nature of the applicant and project will determine whether DCED or PHFA will contract to administer these projects. Homebuyer and small rental projects in which a local government entity is the applicant, DCED will contract and administer. Homebuyer and small rental projects in which a developer is the applicant, PHFA will contract and administer. DCED will continue to administer McKinney-Vento homeless projects that receive HOME funds and CHDO Operating grants.

This new process will support a partnership and greater cooperation among the two agencies. The goal of this new effort is to more effectively use HOME funds.

Under that same sub-recipient agreement, DCED will continue to reserve 35% of the 2007 allocation for distribution by PHFA for rental housing development of ten units and above through its PennHOMES program. Fifteen percent (15%) of the Commonwealth's allocation will be used for rental housing that is owned, sponsored, or developed by Community Housing Development Organizations (CHDO). This CHDO set aside is included in the 35% rental housing allotment that will be administered by PHFA. PHFA will also administer a demonstration predevelopment loan initiative for CHDOs, making available \$250,000 for feasibility, market analysis and site control costs. PHFA will also underwrite all projects funded by DCED that require underwriting. PHFA is expanding its homeownership counseling network, including efforts to prevent predatory lending. Working with PHFA, and our HOME grantees, we will improve the availability of counseling to assure that people are not inappropriately placed in homeownership. PHFA has also developed new, separate training on its downpayment and closing cost assistance programs, including the HOME-funded Homestead program.

The balance of the funds will be administered jointly by DCED and PHFA through a competitive process as described above. DCED will use up to 5% of the allocation for CHDO operating expenses.

For administrative and other practical reasons, a unit of local government should submit applications for HOME CHDO funds. Applications submitted by a unit of local government may be on its own behalf, public agencies, non-profit organizations, or private developers. Private non-profit housing organizations that are unable to secure their unit of local government's agreement to be an applicant should contact DCED.

Because of the complexity of federal regulations and requirements associated with the HOME Program, a minimum application amount of \$50,000 has been established, except for CHDO operating grants and project specific predevelopment loans.

HOME program requirements are covered in the HOME program guidelines, as well as in PHFA's RFP for PennHOMES.

American Dream Downpayment Initiative

Planned use: The Pennsylvania Housing Finance Agency's (PHFA) planned use of ADDI funds is to increase affordability of homeownership in select areas where the cost of construction and/or rapid escalation of market values have outpaced affordability. These targeted areas will be those communities that apply for and receive funding from PHFA through its Homeownership Choice Programs (HCP); namely, the Homeownership Construction Initiative which fosters the construction of affordable for-sale housing. HCP funds play a key role in facilitating and leveraging community revitalization efforts. ADDI funds will be used to support downpayment and closing cost assistance for homebuyers within these communities who qualify under PHFA Homestead program guidelines. By making ADDI funds

available in these communities, it will help ensure that the homes constructed with the aid of HCP funds will be within reach of buyers with limited incomes and resources. PHFA plans to target ADDI funds to communities that have received funding through the HCP, but have not received an ADDI allocation. Furthermore, it plans to combine ADDI and HOME funds where necessary to cover the affordability gap for eligible buyers with the greatest need.

Targeted Outreach: PHFA works with a host of local partners on each community that receives HCP funding, including local bankers, real estate agents, non-profit organizations, municipalities and developers. In order for a community to receive HCP funding, it must demonstrate that it has designed a strategic plan for reaching out to residents and tenants of public and manufactured housing. The application for HCP funding must include a description of which partner organization will be responsible for conducting the outreach, the content thereof, as well as a timetable for implementation. It must also identify the specific residents and tenants that will be the focus of the outreach campaign designed to communicate the various funding and program availability in support of affordable housing including PHFA's suite of homeownership and related assistance programs. Outreach need not be restricted to the marketing of homes constructed with HCP funding, but rather it can and should extend to the marketing of program-eligible homes for sale within the immediate surrounding area of the HCP-funded properties.

Suitability of Recipients to Undertake and Maintain Homeownership: PHFA offers eligible homebuyers the opportunity to receive homebuyer counseling and education at no charge through one of its approved counseling agencies. It strongly encourages homebuyers to seek the assistance of a counselor before signing a sales agreement. Borrowers who have blemished credit histories are required to complete a homebuyer education course prior to closing on their loan. PHFA also pays for debt and delinquency counseling after loan closing for those homebuyers who experience difficulty making their payments for any reason. This information is a key component to the content of the outreach campaign described above.

Tenant-Based Rental Assistance

The Commonwealth intends to use up to \$750,000 of HOME funds for a pilot tenant-based rental assistance initiative. This pilot will be administered by PHFA. This rental assistance effort is planned because of the lack of affordable housing for very low-income people (below 50% of median income). The vast majority of new rental housing developed in Pennsylvania using the Commonwealth's HOME funds and the Low-Income Housing Tax Credit (LIHTC) is affordable only to those at or above 50% of median income. This pilot will specifically target persons with disabilities who have significantly lower incomes to be able to access units developed with HOME and LIHTC resources. The pilot will support projects that can demonstrate the capacity to connect households to long-term rental assistance resources, such as Section 8 vouchers, over a two-year period. This effort will also help address the need for supportive housing options identified in the Commonwealth Agenda for Ending Homelessness in Pennsylvania.

Recapture Provisions

The HOME recapture provision calls for the full return of HOME dollars out of net proceeds back in to the program. The definition of net proceeds means the sale price minus loan repayment and closing costs. The HOME investment amount may be reduced on a pro-rata basis on the length of time the homeowner has owned and occupied the unit measured against the required affordability period. If the net proceeds (i.e., the sales price minus loan repayment, other than HOME funds, and closing costs) are not sufficient to recapture the full (or a pro-rata amount) HOME investment plus enable the homeowner to recover the amount of the homeowner's Downpayment and any capital improvement investment, the recapture provision may allow the net proceeds to be shared proportionally.

The HOME investment subject to recapture is the amount of HOME assistance that enabled the homebuyer to buy the dwelling unit. It includes any HOME assistance that reduced the purchase price from fair market value to an

affordable price, but excludes the amount between the cost of producing the unit and the market value of the property (i.e., the development subsidy).

If no HOME funds are subject to recapture or resale, the restrictions apply for the period of affordability. All HOME assistance, whether a direct subsidy to the homebuyer or a construction or development subsidy, is considered for the purposes of determining the term of affordability.

Resale Restrictions

Only if no HOME funds are subject to recapture do the resale restrictions apply. The unit must be made available for subsequent purchase only to a low income family that will use the property as its principal residence. The owner will receive a fair return on investment, including any improvements.

Emergency Shelter Grant Program

DCED will administer ESG funds for Federal Fiscal Year 2007 through a competitive process. The Department will advertise through the *Pennsylvania Bulletin* the application window for Emergency Shelter Grants (ESG). This open process allows anyone to apply for funding as long as the application is submitted to the Department by unit of local government. In addition, the application is available on the Department's website and an email to previous grant recipients sent notifying them of the application window. The competitive process will be consistent with program guidelines, outlined in this document, and the Commonwealth's Consolidated Plan for 2004 through 2008. The Department has administered this program since 1986. Priority will be given to non-entitlement applications that support the rehabilitation of shelters, strive to keep the family intact, and provide comprehensive services, which are conducive in the transition of clients into permanent housing. This requires networking with local, state, and federal agencies and programs that provide funds for necessary supportive services. Evidence of such networking must be included in the application's narrative with reference to the local "Continuum of Care" process.

The ESG Guidelines follow the federal program requirements that are published in the Federal Register/Volume 61 No.192, October 2, 1996 on pages 51546 through 51553. Program proposals must follow all federal requirements, as well as the state program guidelines.

An emergency shelter is defined in the regulations as any facility whose primary purpose is to provide temporary or transitional shelter for the homeless in general or for specific populations of the homeless. Homeless is defined as an individual or family which lacks a fixed regular, and adequate nighttime residence, or as an individual or family which has a primary nighttime residence that is supervised as a publicly or a privately-operated shelter designed to provide temporary living accommodations. The length of stay in such a facility may not exceed 24 months.

The Department has established a threshold of need. Applications must be for \$50,000 or more. However, the Department reserves the right to fund applications at less than the established threshold noted previously. Funding is not guaranteed on an annual basis. An amendment to the law requires shelters to use homeless people in their work program, thereby creating employment opportunities for homeless people to the maximum extent practicable. This amendment also requires that the termination of assistance to any individual or family in a shelter subsidized with federal funds be in accordance with a formal process established by the recipient. These factors must be incorporated in a facility's operating procedures.

Program Goals and Objectives

- To provide grants to units of general local government for the rehabilitation or conversion of buildings for use as emergency shelters for the homeless.
- To provide grants to pay for operating expenses and essential services in connection with emergency shelters for the homeless, and for homeless prevention activities.

Eligible Applicants

Any unit of local government is an eligible applicant. Units of local government must apply on behalf of nonprofit organizations.

Fund Allocation

The exact amount of the Commonwealth's allocation of 2007 funds is not available at the time of this publication. However, it is expected that the 2007 allocation will be approximately \$3,200,000 based on the 2006 allocation. Since DCED has not yet selected recipients, the anticipated dollar amounts assigned to the eligible activities are subject to change. Our estimates are based on giving a preference to rehabilitation activities and from prior year's expenditures.

Use of Funds

DCED has designed its Emergency Shelter Program to meet a variety of needs for homeless people throughout Pennsylvania. All funds are granted through units of local government to shelter/service providers who provide essential services, shelter, or a combination of these and other eligible activities to the homeless.

Preference will be given to those applicants requesting funds for rehabilitation. Applications will be accepted in December 2006 through January 2007. This is a competitive process; therefore, applications that incorporate the priorities outlined and meet the requirements set forth in the law will be selected. We anticipate the following distribution of funds among the eligible activities:

Rehabilitation: Rehabilitation activities include the renovation, rehabilitation, or conversion of buildings for use as emergency shelters for the homeless. DCED has emphasized rehabilitation because it is the activity most in demand.

Essential Services: Essential services include, but are not limited to, services concerned with employment, health, substance abuse, education, or food. Applicants will be encouraged to utilize other sources for the provision of these services because of a 30 percent cap on the use of funds for these activities and the availability of other funds for supportive services.

Operations: Operations include the payment of maintenance and other costs including rent, insurance, utilities, and furnishings. In order to receive funding in this category, the applicant must demonstrate substantial need as well as capacity to sustain a comparable level of activities in future years without this assistance. Due to the nature of this program, it is impossible to guarantee funding on a yearly basis.

Homeless Prevention: Expenses incurred under this activity may include security deposits, short-term subsidies to defray rent and utility arrearages, mediation programs for tenant-landlord disputes, legal services, and payments to prevent foreclosures on a home.

Administration: Up to 5% of the grant may be used for administrative costs. DCED will use no more than 2.5% for administration. Local applicants are limited to the same 2.5% cap for administration.

Grant amounts awarded with ESG funds may not be used to pay for the following, but it is not an all-inclusive list:

1. Acquisition cost of an emergency shelter for the homeless.
2. Rental costs for commercial and /or transient accommodations such as hotels or motels.

ESG program requirements are covered in the ESG program guidelines

Housing Opportunity for Persons with AIDS (HOPWA)

Sources of Funds

The HOPWA Program is funded through the HUD formula grant program. The exact amount of the HOPWA allocation of 2007 funds is not available at the time of this publication. However, it is expected that the 2007 allocation will approximate the 2006 allocation of \$1,548,000.

Method of Distribution of Funds

The Department of Health (DOH), Bureau of Communicable Diseases' Division of HIV/AIDS allocates HOPWA funds throughout the state to six of Pennsylvania's seven Regional HIV Planning Coalitions/Fiscal Agents, except for the Philadelphia and Pittsburgh metropolitan areas which receive their own allocations. Grant agreements are developed with the Coalitions/Fiscal Agents through a sole source process instead of Request for Proposals. It would not be practical to enter into grant agreements with different agencies each year since they would not have the institutional knowledge to manage these services effectively. The Fiscal Agent is an entity with which the DOH enters into a grant agreement to provide fiscal administrative functions on behalf of a Coalition. Each Coalition prioritizes needs for its respective region through a formal process reflective of its demographic and epidemiological profile. The Fiscal Agent will disperse the funds based on the need for the full range of eligible activities. Fiscal Agents issue Requests for Proposals annually and/or every two years to large organizations and smaller grassroots, faith based and other community organizations to provide the following activities: short-term rent, mortgage, and utility payments; rental assistance; housing information; resource identification; operating costs; permanent housing placement and supportive services. Supportive services are limited to those eligible under the Ryan White CARE Act of 1990. In addition, each Coalition/Fiscal Agent has the capacity to distribute patient care funds directly if it is expedient and/or the most cost effective method for service delivery.

Each Region receives funding to provide Short term rent, mortgage, and utility assistance to their clients. Project Sponsors that do have caps in place, have based them on historical usage, the estimated number of clients in need of this service, and the amount typically needed to avoid eviction.

Below is a list of the six regions noting if caps are used for this service and the amount:

AIDSNET – Cap per client is a 17-week period and is based on the area's fair market rents.

North Central – No caps.

Northeast – No caps.

Northwest – No caps.

South Central – One project sponsor has a cap of \$600 per client and is based on costs in their area's housing market.

South West – Cap per client is \$750 and is based on the area's fair market rents.

Nearly all those persons diagnosed with AIDS are adult (99%) and male (79%). The proportion of females is 21%. While 37% of the persons are white, the percentages of African-Americans (51%) and Hispanics (11.5%) are disproportionately represented among those living with AIDS in Pennsylvania. Historically, the percentage of persons who reported a primary risk factor as 'men who have sex with men' (MSM), was 39%. Injecting drug use (IDU) ranks second at 33% and heterosexual contact totals 17%. Of those living, 67% were reported from the five Pennsylvania counties in the Philadelphia Eligible Metropolitan Area (EMA); 9.3% lived in the Southwestern region (including the Pittsburgh EMA); and 9.8% were reported from the South Central region. AIDSNET (Allentown/Bethlehem) reported 7.5% of the state's AIDS cases. The remaining three Coalitions, North Central (Lock Haven/Williamsport), Northwest (Clarion/Erie), and Northeast (Wilkes-Barre/Scranton) reported 6.4% of persons living with AIDS in Pennsylvania.

HIV-infection became a reportable condition in Pennsylvania in October 2002. Although reporting began in November 2002, Philadelphia was granted an extension for implementation in that jurisdiction. Due to

Pennsylvania's nascent reporting, prevalence and incidence cannot yet be determined with any validity. Several years of data collection will be needed to provide accurate and meaningful figures. Until those data are available, the Center for Disease Control (CDC) suggests assuming that 400 people are infected per 100,000 of the population. Using this formula and the population estimate from the 2000 U. S. census, Pennsylvania has approximately 49,124 persons infected with HIV. It is assumed they are geographically distributed and demographically characterized the same as persons presently living with AIDS in Pennsylvania. Case management continues to be an integral part of services in each region. Under contract and subcontract, each case manager is responsible for developing a client assessment and establishing individualized care plans. A formal monitoring and evaluation system has been developed to ensure quality service and appropriate levels of care. Each Coalition is responsible for the development and maintenance of a needs assessment and the prioritization of services. Fiscal agents for the Coalitions will monitor service agencies, oversee disbursement of funds, and issue Requests for Proposals.

The formula distribution for the Coalitions is based primarily on the number of live AIDS cases.

Monitoring Standards and Procedures

DCED administers all funds received from HUD with the exception of the HOPWA program, which is administered by the Pennsylvania Department of Health. Grantees receiving CDBG, HOME or ESG funds from DCED will be monitored at least once during the life of their contract with scheduling depending on grantee activities and expenditure rates. DCED develops a yearly monitoring schedule based on the state fiscal year of July to June, with all federal program grantees identified for monitoring on a three-year, rotating basis.

DCED has a staff of six persons who perform monitoring. Grantees are monitored to ensure that statutory and regulatory requirements are met and that information submitted to DCED, and ultimately to HUD, is correct and complete. The monitoring visits include DCED staff verification of program requirements, such as income levels of the families and individuals served, the procedures used to administer funds locally and the quality of construction and rehabilitation work.

The HOPWA is administered by the Department of Health. The monitoring process for HOPWA is consistent with the process used for other HUD funds.

Public Housing Actions

The Commonwealth outlines in Appendix E its procedures for the Certification of Consistency with annual Agency Plans submitted by housing authorities. Additionally, PHFA will continue to provide assistance to housing authorities that desire to undertake bond financing to modernize their public housing units. If HUD identifies a troubled public housing agency, the Commonwealth will explore options to assist that agency through the PHFA bond financing initiative and other options available to the Commonwealth.

CERTIFICATIONS

General Certifications

In accordance with the applicable statutes and the regulations governing the Consolidated Plan regulations, the state certifies that:

Affirmatively Further Fair Housing

The state will affirmatively further fair housing, which means it has conducted an analysis of impediments to fair housing choice within the state, takes appropriate actions to overcome the effects of any impediments identified through that analysis, and maintains records reflecting that analysis and actions in this regard.

Anti-Displacement and Relocation Plan

The state will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, and implementing regulations at 49 CFR 24; and it has in effect and is following a residential anti-displacement and relocation assistance plan required under Section 104(d) of the Housing and Community Development Act of 1974, as amended, in connection with any activity assisted with funding under the CDBG or HOME programs.

Drug-Free Workplace

The state will continue to provide a drug-free workplace by:

1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;
2. Establishing an ongoing drug-free awareness program to inform employees about:
 - (a) The dangers of drug abuse in the workplace;
 - (b) The grantee's policy of maintaining a drug-free workplace;
 - (c) Any available drug counseling, rehabilitation, and employee assistance programs; and
 - (d) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.
3. Making it a requirement that each employee engaged in the performance of the grant will receive a copy of the statement required by paragraph 1.
4. Notifying the employee in the statement required by paragraph 1 that, as a condition of employment under the grant, the employee will:
 - (a) Abide by the terms of the statement; and
 - (b) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction.
5. Notifying the agency in writing, within 10 calendar days after receiving notice under subparagraph 4(b) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant.
6. Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph 4(b), with respect to any employee whom is so convicted:
 - (a) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or
 - (b) Requiring such employee to participate satisfactorily in drug abuse assistance or rehabilitation program approved for such purposes by a federal, state, or local health, law enforcement, or other appropriate agency.
7. Making a good faith effort to continue to maintain a drug-free workplace through the implementation of paragraphs 1, 2, 3, 4, 5 and 6.

Anti-Lobbying

To the best of the state's knowledge and belief:

1. No federal appropriated funds have been paid or will be paid, by or on behalf of it, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.
2. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, it will complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. It will require that the language of paragraph 1 and 2 of this certification be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all sub-recipients shall certify and disclose accordingly.

Authority of State

The submission of the Consolidated Plan is authorized under state law and the state possesses the legal authority to carry out the programs under the Consolidated Plan for which it is seeking funding, in accordance with applicable HUD regulations.

Consistency with Plan

The housing activities to be undertaken with CDBG, HOME, ESG, and HOPWA funds are consistent with the strategic plan.

Section 3

It will comply with Section 3 of the Housing and Urban Development Act of 1968 and implementing regulations at 24 CFR Part 135.

Dennis Yablonsky

Specific CDBG Certifications

The state certifies that:

Citizen Participation

It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR §91.115 and each unit of general local government that receives assistance from the state is or will be following a detailed citizen participation plan that satisfies the requirements of 24 CFR §570.486.

Consultation with Local Governments

It has or will comply with the following:

1. It has consulted with affected units of local government in the non-entitlement area of the state in determining the method of distribution of funding.
2. It engages in, or will, engage in planning for community development activities.
3. It provides, or will provide, technical assistance to units of local government in connection with community development programs.
4. It will not refuse to distribute funds to any unit of general local government on the basis of the particular eligible activity selected by the unit of general local government to meet its community development needs, except that a state is not prevented from establishing priorities in distributing funding on the basis of the activities selected.

Local Needs Identification

It will require each unit of general local government to be funded to identify its community development and housing needs, including the needs of low-income and moderate-income families, and the activities to be undertaken to meet such needs.

Community Development Plan

Its consolidated housing and community development plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that have been developed in accordance with the primary objectives of Title I of the Housing and Community Development Act of 1974, as amended. (See 24 CFR 570.2 and 24 CFR part 570).

Use of Funds

It has complied with the following criteria:

1. Maximum Feasible Priority - With respect to activities expected to be assisted with CDBG funds, it certifies that it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight. The Action Plan also includes activities which the grantee certifies are to meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available.
2. Overall Benefit - The aggregate use of CDBG funds including Section 108 guaranteed loans during program year 2007 shall principally benefit persons of low and moderate income in a manner that ensures that at least 70% of the amount is expended for activities that benefit such persons during the designated period.
3. Special Assessments - The state will require units of general local government that receive CDBG funds to certify to the following:

It will not attempt to recover any capital costs of public improvements assisted with CDBG funds including Section 108 loan guaranteed funds by assessing any amount against properties owned and

occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

It will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108, unless CDBG funds are used to pay the proportion of fee or assessment attributable to the capital costs of public improvements financed from other revenue sources. In this case, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds. Also, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

Excessive Force

It will require units of general local government that receive CDBG funds to certify that they have adopted and are enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in nonviolent civil rights demonstrations; and
2. A policy of enforcing applicable state and local laws against physically barring entrance to or exit from a facility or location which is the subject of such nonviolent civil rights demonstrations within its jurisdiction.

Compliance with Anti-Discrimination

The grant will be conducted and administered in conformity with Title VI of the Civil Rights Act of 1964 (42 USC 2000d), the Fair Housing Act (42 USC 3601-3619), and implementing regulations.

Compliance with Laws

It will comply with applicable laws.

Dennis Yablonsky
Secretary
Department of Community and Economic Development

Date

Specific HOME Certifications

The state certifies that:

Tenant-Based Rental Assistance

If it intends to provide tenant-based rental assistance:

The use of HOME funds for tenant-based rental assistance is an essential element of the state's Consolidated Plan.

Eligible Activities and Costs

It is using and will use HOME funds for eligible activities and costs, as described in 24 CFR §92.205 through §92.209 and that it is not using and will not use HOME funds for prohibited activities, as described in §92.214.

Appropriate Financial Assistance

Before committing any funds to a project, the state or its recipients will evaluate the project in accordance with the guidelines that it adopts for this purpose and will not invest any more HOME funds in combination with other federal assistance than is necessary to provide affordable housing.

ESG Certifications

The Emergency Shelter Grantee certifies that:

1. The requirements of 24 CFR 576.21(a)(4) which provide that the funding of homeless prevention activities for families that have received eviction notices or notices of termination of utility service meet the following standards: (A) that the inability of the family to make the required payments must be the result of a sudden reduction in incomes; (B) that the assistance must be necessary to avoid eviction of the family or termination of the services to the family; (C) that there must be a reasonable prospect that the family will be able to resume payments within a reasonable times; and (D) that the assistance must not supplant funding for preexisting homelessness prevention activities from any source.
2. The requirements of 24 CFR 576.25(b)(2) concerning the submission by nonprofit organizations applying for funding of a certification of approval of the proposed projects(s) from the unit of local government in which the proposed project is located.
3. The requirements of 24 CFR 576.53 concerning the continued use of buildings for which the Emergency Shelter Grant funds are used for rehabilitation or conversion of the buildings for use as emergency shelters for the homeless; or when funds are used solely for operating costs or essential services, concerning the population to be served.
4. The building standards requirement of 24 CFR 576.55.
5. The requirements of 24 CFR 576.56, concerning assistance to the homeless.
6. The requirements of 24 CFR 576.57, other appropriate provisions of 24 CFR Part 576, and other applicable Federal law concerning nondiscrimination and equal opportunity.
7. The requirements of 24 CFR 576.59(b) concerning the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.
8. The requirements of CFR 576.59 concerning minimization of the displacement of persons as a result of a project assisted with these funds.
9. The requirements of 24 CFR 576.56(a) and 576.65(b) that grantees develop and implement procedures to ensure the confidentiality of records pertaining to any individual provided family violence prevention or treatment services under the project assisted under the Emergency Shelter Grants Program and that the address or location of any family violence shelter project assisted with ESG funds will not be made public, except with written authorization of the person or persons responsible for the operation of the shelter.
10. The requirement of that recipients involve, to the maximum extent practicable, homeless individuals and families in constructing, renovating, maintaining, and operating facilities assisted under the ESG Program, and in providing services for occupants of these facilities as provided by 24 CFR 576.56(b)(2)
11. The new requirement of the McKinney Act (42 USC 11352) to develop and implement, to the maximum extent practicable and where appropriate, policies and protocols for the discharge of persons from publicly-funded institutions of systems of care (such as healthcare facilities, foster care or other youth facilities, or correction programs and institutions) in order to prevent such discharge from immediately resulting in homelessness for such persons. I further understand that state and local

governments are primarily responsible for the care of these individuals, and that ESG funds are not to be used to assist such persons in place of state and local resources.

I certify that the Commonwealth will comply with the requirements of 24 CFR Part 24 concerning the Drug Free Workplace Act of 1988.

I certify that the Commonwealth will comply with the provisions of, and regulations and procedures applicable under 24CFR 576.57(e) with respect to the environmental review responsibilities under the National Environmental Policy Act of 1969 and related authorities as specified in 24 CFR Part 58 as applicable to activities of nonprofit organizations funded directly by the Commonwealth. The Commonwealth agrees to assume the Department's responsibility and authority as set forth in 24 CFR 576.57(e) for acting on the environmental certifications and requests for the release of funds submitted to the Commonwealth by local government recipients.

I certify that the Commonwealth will ensure the provision of the matching funds required by 24 CFR 576.561 and 42 USC 11375, including a description of the sources and amounts of such supplemental funds, as provided by the Commonwealth, units of general local government or nonprofit organizations.

I further certify that the submission of a complete and approved Consolidated Plan and its relevant certifications, which is treated as the application for an Emergency Shelter Grant, is authorized under Commonwealth law, and that the Commonwealth possesses legal authority to fund the carrying out of grant activities by units of general local government and nonprofit organizations in accordance with applicable laws and regulations of the Department of Housing and Urban Development

Date

HOPWA Certifications

The state HOPWA grantee certifies that:

Activities

Activities funded under the program will meet urgent needs that are not being met by available public and private sources.

Building

Any building or structure assisted under the program shall be operated for the purpose specified in the Plan:

1. For at least ten (10) years in the case of any building or structure purchased, leased, rehabilitated, or converted with HOPWA assistance;
2. For at least three (3) years in the case of assistance involving non-substantial rehabilitation or repair of a building or structure.

Appendix B

Explanations for Table 2

The following section contains information about the preparation of Table 2 - Investment of Housing Resources. Line items with numbers in the amount and percentage spaces are discussed.

1. HOME: The estimate of the distribution of HOME resources is based on projects funded in previous years. This line also includes American Dream Down Payment Initiative (ADDI) funds.
2. CDBG: The amount of CDBG funds shown is the anticipated amount to be used for housing in 2007. This estimate is based on grantee expenditure plans approved for housing projects in prior years.
3. ESG: An estimate of the distribution of these resources is based on projects funded in previous years and the project priorities established by the Department.
4. HOPWA: The amount of HOPWA program funds for FFY 2007 is based on the prior year's regional allocations and the percentage of AIDS cases per region.
5. DOE/Other Energy Programs: This line includes the United States Department of Energy (DOE) Weatherization and Low-Income Home Energy Assistance (LIHEAP) programs. The percentage of funds distributed between homeowner and rental units is based on the percentage of units weatherized in prior years. The actual percentage of funds spent on a rental unit is lower than that spent on homeowner unit.
6. CSBG: The amount spent from the CSBG Program on housing and related support services is based on the amount spent in state FY 2005.
7. LIHTC: PHFA administers the tax credit program. This estimate is consistent with the prior year.
8. PATH: This is the amount of funding for the Projects to Assist in Transition from Homelessness Program (PATH) for 2006-2007. Currently, there are 27 counties served by PATH funds. Services are provided to people with mental illness and substance abuse who are homeless or at imminent risk of becoming homeless. The bulk of the funds are for outreach services.
9. SSBG: In state Fiscal Year 2005-06 the amount of \$4,183,000 was reported to the U.S. Department of Health and Human Services for housing services.
10. Total Federal: The total of all the federal programs listed in the table.
11. Total-State: This line is the total of the Homeless Assistance Program, PHFA Homeownership Choice Programs, the Closing Cost Assistance Program, the Housing and Redevelopment Assistance Program and the Pennsylvania Access Grant Program.

PennHOMES- Funding for this program includes the amount of PHFA's reserve funds that are anticipated to be available in calendar year 2007. The distribution of funds for calendar year 2007 will be determined in December 2006. PHFA committed \$9.75 million in calendar year 2006.

Closing Cost Assistance Program - PHFA will provide \$1,000,000 from its reserve funds to provide closing cost assistance loans to eligible buyers in conjunction with PHFA's Single Family Lower Income Home Ownership Program in calendar year 2007.

Homeless Assistance: Funds for the Department of Public Welfare's (DPW) Homeless Assistance Program are block granted to counties and the counties report how they plan to

allocate funds for services by submitting an annual pre-expenditure plan to DPW. The distribution of these funds is based on the Fiscal Year 2004-2005 allocation. The state anticipates spending \$30,627,000 in FY 2006-2007.

Housing and Redevelopment Assistance Program: State funds anticipated to be spent in fiscal year 2007 from the state appropriation. DCED anticipates spending \$6,000,000 for the Core Communities Housing Program in Fiscal Year 2007.

Pennsylvania Accessible Housing Program: This new program replaces the Pennsylvania Access Grant Program. The new program will continue to provide grant assistance in the form of access modifications to persons with disabilities who currently own a home or rent a unit. The recipient of this assistance must have a permanent physical disability and meet other eligibility criteria. A state-funded appropriation of \$3 million will support this program.

12. Total Private – No figures are provided at this time. However, the Commonwealth anticipates including these figures in future years as new outcome measures are implemented.
13. Total All Sources: The total of state and federal dollars.

Appendix D HOPWA Eligible Housing Related Activities

Service Category	Service Definition	Sub-Service Name	Sub-Service Description	1 Unit =
U. Housing Services	The provision of short-term assistance to support temporary or transitional housing to enable an individual or family to gain or maintain medical care. Housing-related services may be housing in medical treatment programs for chronically-ill clients (e.g., assisted-living facilities), specialized short-term housing, traditional housing, and non-specialized housing for clients who are HIV-affected. Category includes access to short-term emergency housing for homeless people. This also includes assessment, search, placement, and the fees associated with them. NOTE: If housing services include other service categories (e.g., meals, case management, etc.), these services should also be reported in the appropriate service categories.	Housing Assistance/ Information Services - RW	Assistance provided to locate and obtain suitable, ongoing or transitional housing. Includes counseling, information, and referral services to assist a client to locate, acquire, finance and maintain housing. May also include fair housing counseling.	15 minutes
		Housing Assistance/ Information Services - HOPWA	Assistance provided to locate and obtain suitable, ongoing or transitional housing. Includes counseling, information, and referral services to assist a client to locate, acquire, finance and maintain housing. May also include fair housing counseling.	15 minutes
		Housing support - RW Only	Provides short-term financial assistance to support temporary or transitional housing required in order to gain or maintain medical care. Does not include on-going rental subsidies or mortgage payments.	\$1.00
		Resource Identification - HOPWA Only	Activities intended to establish, coordinate and develop housing assistance resources. Includes conducting research to determine feasibility of housing related initiatives.	1 Hour
		Acquisition and Rehab - HOPWA ONLY	Activities related to the acquisition, rehabilitation, conversion, lease, and repair of facilities to provide housing and services.	\$1.00
		New Construction - HOPWA Only	Costs associated with the construction of Single Room Occupancy and community residences.	\$1.00
		Rental Assistance Payments - HOPWA Only	Costs related to the payments made for support of ongoing, monthly project or tenant-based rental assistance/rent subsidies.	\$1.00
		Short-term rent, mortgage and utility payments - HOPWA Only	Costs related to payments to prevent the homelessness of a tenant or mortgagor of a dwelling.	\$1.00
		Supportive or Skilled Housing - HOPWA Only	Provides for transitional or ongoing, facility-based housing including nursing home, skilled care, intermediate care and personal care facilities and projects or facilities that provide housing with supportive services. Also known as HOPWA Operating Costs.	1 Day

Appendix E

Housing Authorities Certification of Consistency

Public Housing Authorities (PHAs) in the more rural areas of the state will be required to obtain a Certificate of Consistency with this Consolidated Plan as part of their Agency Plan submission to HUD. DCED will be responsible for processing the Certificates of Consistency for the PHAs. The PHAs should submit requests for Certificates of Consistency to the Office of Community Development, Pennsylvania Department of Community and Economic Development, 4th Floor, Commonwealth Keystone Building, 400 North Street, Harrisburg, PA 17120. The telephone support number within DCED for Certificates of Consistency is 717-214-5340.

PHA Agency Plans will be found to be consistent with Pennsylvania's Consolidated Plan when they include one or more of the following activities:

- Rehabilitation of the existing public housing stock in a manner that is sensitive to the need for accessibility to/and visitability by persons with disabilities.
- Demolition of obsolete public housing units.
- Conversion of underutilized and less marketable public housing units into unit configurations that is more marketable.
- Development of new lower density public housing that is conducive to neighborhood revitalization.
- Homeownership incentives for public housing residents.
- Resident initiatives, especially those aimed at promoting the economic self-sufficiency of public housing residents.
- Supportive services, especially those that support the aging in place of senior residents.
- Requests for additional Section 8 vouchers from HUD.

As an outcome of the process of completing this Consolidated Plan, Pennsylvania has established a policy initiative to expand public awareness of the needs of persons with disabilities. During the next five years, the state will be tracking the progress of all housing providers in addressing the needs of persons with disabilities. Therefore, when submitting requests for Certificates of Consistency, PHAs are asked to include the following information along with the submission of their Agency Plans:

- A summary of the PHA's efforts and accomplishments in expanding the number of accessible and visitable public housing and Section 8 units.
- A summary of the PHA's efforts and accomplishments in collaborating with other housing providers, especially those whose mission involves special housing needs.
- A summary of the PHA's efforts and results to meet the income targeting and income mixing requirements of QHWRA.

Appendix F

Definitions of Terms Used with the Consolidated Plan

American Dream Downpayment Initiative: The funds provide first-time homebuyers with downpayment and closing cost assistance toward the purchase of single family housing by low income families.

Affordable Housing: Affordable housing is generally defined as housing where the occupant is paying no more than 30% of gross income for gross housing costs, including utility costs.

Area of Low-Income Concentration: A geographic location (municipality) in which persons living in households with incomes below the federal poverty line, as established by the U.S. Office of Management and Budget, represent over 40% of the total population.

Area of Racial or Ethnic Concentration: A geographic location (municipality) in which minority persons living in households of all income levels represent over 20 percentage points greater than the percentage of minority persons living in the entire state. (Since Pennsylvania's minority population is 12.28%, any municipality over 32.28% meets this definition.)

Assisted Household or Person: See Benefit with Housing definition listed below.

Benefit with Housing: For the purpose of specifying one-year goals for assisting households or persons, a household or person is assisted if, during the coming federal fiscal year, they will benefit through one or more programs included in the jurisdiction's investment plan. A renter is benefited if the person takes occupancy of affordable housing that is newly acquired, newly rehabilitated, or newly constructed, and/or receives rental assistance. An existing homeowner is benefited during the year if the home's rehabilitation is completed. A first-time homebuyer is benefited if a home is purchased during the year. A homeless person is benefited during the year if the person becomes an occupant of transitional or permanent housing. A non-homeless person with special needs is considered as being benefited if the provision of supportive services is linked to the acquisition, rehabilitation, or new construction of a housing unit and/or the provision of rental assistance during the year. Also, all persons served by the HOPWA program are presumed to be special needs.

Consistent with the Consolidated Plan: A determination made by the jurisdiction that a program application meets the following criterion: The Annual Plan for that fiscal year's funding indicates the jurisdiction planned to apply for the program or was willing to support an application by another entity for the program; the location of activities is consistent with the geographic areas specified in the plan; and the activities benefit a category of residents for which the jurisdiction's five-year strategy shows a priority.

CCC: Community Correction Centers. These facilities serve only inmates who have completed at least one-half of a minimum sentence, but do not have more than one year remaining until that minimum sentencing date.

Developmentally Disabled: The federal-definition of developmental disabilities includes a wide range of persons with disabilities. It includes any person who has a severe, chronic disability which is due to a mental and/or physical impairment; occurs before reaching age 22 and is likely to continue indefinitely; results in substantial limitations in three or more of the following: (i) self-care, (ii) receptive and expressive language, (iii) learning, (iv) mobility, (v) self-direction, (vi) capacity for independent living, and (vii) economic self-sufficiency; and requires a combination and sequence of special, interdisciplinary, or generic care, treatment, or other services which are of lifelong or extended duration and are individually planned and coordinated.

This definition includes mental retardation, but also includes conditions such as cerebral palsy, autism, some types of epilepsy and learning disabilities, and a number of other specific disabilities.

Discharge Plan Policy Sources: For the purpose of defining the discharge plan policies of publicly-funded institutions within the Commonwealth which serve to prevent discharge to immediate homelessness, the following sources are cited:

Children and Youth Discharge Policy <http://www.pacode.com/secure/data/055/chapter3800toc.html>;

Hospital Policy <http://www.pacode.com/secure/data/028/chapter105toc.html>; and the PA Department of Corrections “Inmate Reentry and Transition Policy document number 7.3.1 effective February 6, 2006 may be obtained upon request to the PA Department of Corrections’ Bureau of Standards, Practices and Security at (717) 731-7111.

Extremely Low-Income: Households whose incomes do not exceed 30% of the median income for the area, as determined by HUD, with adjustments for smaller and larger families and for areas with unusually high or low-incomes or where needed because of prevailing levels of construction costs or fair market rents. (HOME statutory language defines low-income as incomes that do not exceed 80% of the median income for the area and very low-income as up to 50% of median for the area.)

Low-income: Households whose incomes do not exceed 50% of the median area income for the area, as determined by HUD, with adjustments for smaller and larger families and for areas with unusually high or low-incomes or where needed because of prevailing levels of construction costs or fair market rents. (HOME statutory language defines low income as incomes that do not exceed 80 percent of the median income for the area and very low income as up to 50% of median for the area.)

Middle Income: Households whose incomes are between 81% and 95% of the median income for the area, as determined by HUD, with adjustments for smaller or larger families, except that HUD may establish income ceilings higher or lower than 95% of the median for that area on the basis of HUD's findings that such variations are necessary because of prevailing levels of construction costs or fair market rents, or unusually high or low family incomes.

Moderate Income: Households whose incomes do not exceed 80 percent for the median income for the area, as determined by HUD with adjustments for smaller and larger families, except that HUD may establish income ceilings higher or lower than 80% of the median for the area on the basis of HUD's findings that such variations are necessary because of prevailing levels of construction costs or fair market rents, or unusually high or low family incomes. (HOME statutory language defines low income as incomes that do not exceed 80 percent of the median income for the area and very low income as up to 50% of median for the area.)

New Freedom Initiative: A means to promote full access to community life via the implementation of the Olmstead Decision. This initiative is an effort to remove barriers to community living that are present in the lives of persons with disabilities (mental and physical). It proposes six broad objectives: to increase access to assistive and universally designed technologies; to expand educational opportunities; to promote homeownership; to integrate Americans with disabilities into the workforce; to expand transportation options; and to promote full access to community life. Outreach efforts can be expanded to ensure that persons with disabilities are aware of the support that may be available to them through CDBG-assisted programs in the jurisdiction where they reside.

Nonparticipating Jurisdictions: Geographic areas (e.g., counties, cities) of the Commonwealth that must access federal HOME funds through the state.

Participating Jurisdictions: Geographic areas (e.g., states, counties, cities) of the Commonwealth that receive an allocation of HOME funds directly from the federal government.

Pennsylvania Act 179: State law, which authorizes use of and determines the allocation formula for the Community Development Block Grant (CDBG) program in areas of the Commonwealth that do not receive CDBG funds directly from the federal government.

Section 108: This is a federal loan guarantee program based on the CDBG allocations.

Section 215: Section 215 of Title II of the National Affordable Housing Act defines "affordable" housing projects under the HOME program.

Substandard Conditions: Dwelling units that do not meet standard conditions and may or may not be suitable for rehabilitation.

Supportive Services: Services provided to residents of supportive housing for the purpose of facilitating the independence of residents. Some examples are case management, medical or psychological counseling and supervision, childcare, transportation, and job training.

Appendix G

Public Comment Details

The Commonwealth conducted an online public meeting on July 19, 2006. A separate phone line was set up on the same date to accommodate technical needs and inquiries. The information about the online public meeting was included in a public notice about the meeting. Participants were asked to pre-register and provide their contact information. The meeting was an open forum for discussion and questions about the Consolidated Plan. The opportunity provided for discussion of the incorporation of HUD's new Performance Measures.

The Pennsylvania Housing Advisory Committee (PHAC) met on October 3, 2006 to discuss the Action Plan. The PHAC includes the Secretaries of Community and Economic Development, Aging, Health, Public Welfare, Labor and Industry, representatives from the State House of Representatives and the State Senate, and the executive directors of PHFA, the Human Relations Commission, the Governor's Office of Housing and Community Revitalization, chairpersons of the Regional Housing Advisory Committees, representatives from county government, for-profit housing providers, housing and redevelopment authorities, organized labor, for-profit and non-profit providers of technical assistance, and social service providers. Twenty-seven (27) persons were formally invited to this meeting, as well as the public. The PHAC's agenda included discussion on the tenant based rental assistance pilot using HOME funds, as well as discussion about how to coordinate "People First" housing opportunities.

Comment regarding the Action Plan 2007 was solicited and received from the Community Development Housing Practitioners Advisory Committee on October 27, 2006. No objections or concerns were raised about the draft document. However, there was discussion about the housing needs of persons with mental illness and a recent housing report completed by a task force for the Office of Mental Health and Substance Abuse Services. The concern was that the report did not have enough input from the housing community or those that developed housing. There also was a mistaken impression that the report called for shifting responsibilities for housing this population group to public housing authorities.

Additionally, comments were solicited on the proposal to use HOME funds for tenant based rental assistance at the annual conference of the Pennsylvania Association of Housing and Redevelopment Agencies (PAHRA). There were no comments regarding the support or opposition of this activity, just questions and suggestions about its implementation.

The PA Department of Health (DOH), Bureau of Communicable Diseases, Division of HIV/AIDS, and the Pennsylvania Integrated HIV/AIDS Planning Council were given an update about the Action Plan and also informed about the opportunity to provide comments on the Plan after their September 12, 2006 meeting. A request for comments was solicited at this meeting for the 2007 Action Plan.

The Department of Community and Economic Development (DCED) held two public hearings during the public comment period for the draft 2007 Action Plan. The first online public hearing occurred on November 3, 2006. A separate phone line was set up on the same date to accommodate technical needs and inquiries. The information about the online public meeting was included in the public notice about the availability of the draft 2007 Action Plan. Participants were asked to pre-register and provide their current data. The only people that participated were DCED staff and one person from the Governor's Office.

An in-person public hearing was held on November 6, 2006. Kay Pickering, AIDS Planning Coalition of South Central Pennsylvania was the only person to testify. Ms. Pickering cited a recent Patriot News (Harrisburg) newspaper article that focused on the lack of affordable housing as among the five top-priority problems in mid-state Pennsylvania along with health care, transportation, substance abuse and job training. The article was based on a report, commissioned by the Foundation for Enhancing Communities, that did not reveal any surprises. However, it was significant because it provided regional attention to housing needs and useful evidence and statistics. Better health will not be possible if people do not have safe and affordable places to live. Ms. Pickering expressed her belief that housing is HIV prevention. Having housing improves access to HIV medical care and reduces the risk of HIV transmission.
