

Instructions For Tax Collector's Monthly Report To Taxing District

This is a standard statewide reporting form to report the taxes collected and remitted by the tax collector to the appropriate municipality, school district and county, as required by Act 189 of 1998. It applies to all taxes collected under the Local Tax Collection Law. A separate report is to be sent to each taxing district. It does not apply to the Earned Income Tax or any other taxes collected under the Local Tax Enabling Act. It is required that tax collectors submit this report monthly, for the previous month or period, on or before the tenth of each month, to the taxing districts. ***Do not submit this report to the Department of Community and Economic Development.***

Because this is a standard report there may be items shown on this report that do not apply to your taxing districts. In those cases leave the items that are not applicable to your taxing districts blank or insert N/A. Also, it is not the intent of Act 169 to change the documentation the tax collector submits to the taxing district; therefore, (*) indicates that the tax collector is to submit any supporting documentation required by the taxing district.

For those taxing districts levying and accounting for more than four taxes or interim billings, this report may be reproduced with more columns across the top to report the separate levies as long rows one through thirteen remain unchanged.
